OVERVIEW

The FOTON eMiler is a 4.25-tonne all-electric truck engineered for urban logistics, municipal services and commercial fleet operations. Offering a 137-mile range, 2,320kg payload and rapid DC charging in around one hour, it combines efficiency with productivity. Its compact dimensions, tight turning circle and advanced safety technologies make it ideally suited to busy city environments, while the comfortable, technology-rich cab ensures a practical and reliable solution for businesses transitioning to electric transport.

KEY FEATURES

- ✓ Automatic Emergency Braking (AEBS)
- ✓ Lane Departure Warning
- ✓ Blind Spot Information System
- ✓ Reverse camera & parking sensors
- ✓ Air conditioning & cruise control
- ✓ 9-inch multimedia display with Bluetooth
- ✓ Compact 5.25m turning radius
- ✓ Standard UK Category B licence compatible
