charging time

44mph
top speed

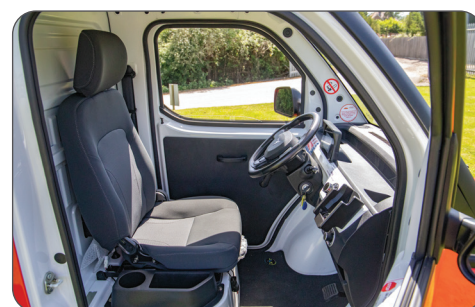

5-year
battery warranty

OVERVIEW

The Derry Neomor D01 is a compact, fully electric utility vehicle developed specifically for last-mile delivery, site operations, facilities management, and urban logistics applications. Designed for efficiency and practicality, the D01 combines a compact footprint with a useful payload and cargo capacity, making it particularly well suited to environments where larger vans may be restricted or operationally inefficient.

KEY FEATURES

- ✓ Fully electric zero-emission operation
- ✓ Compact design for urban environments
- ✓ Approx. 1.8m³ cargo capacity. Larger box available
- ✓ Fully customisable back/box
- ✓ Electric Power Steering (EPS)
- ✓ ABS & Electronic Brakeforce Distribution (EBD)
- ✓ Single-seat operator cabin
- ✓ 20%+ hill-climbing capability
- ✓ Road legal and EEC-certified
